**Subject:** Microsoft Settlement

The current proposed settlement in the Microsoft Anti Trust case is completely unacceptable. Microsoft may open its sourcecode and API's to any business (for profit or not for profit).

In addition, Microsoft must be punished for its monopolistic ways. Giving out software is not an option. It MUST give something that can be used such as CASH!

This settlement is entirely unacceptable and I expect the US Justice Dept. to come up with a REAL solution to the Microsoft problem.
